Good Evening,

Further to previous message and to highlight the revised reporting request in attached RFI material, please ensure particular reporting (nil responses required) in regards to :10.

Emergencies Act measures: Any action taken under a) Emergency Measures Regulations (Regulations) and b) Emergency Economic Measures Order (Order). This does need include the referrals already reported to financial institutions by FPCO – Financial Crime.

For context: the Commissioner requires input for upcoming meetings through this weekend. The ask is to provide tangible examples from different places across the country where we may have utilized the Emergency Act measures. As we turn our attention to this, there is potential that both concrete actions as well as how (perhaps) even the communication on the implications of the measures might have been used to deter/prevent a blockade etc.

Thanks for your attention

Keith
